

## Consultation event proves popular

In November 2008, Metro and Leeds City Council held exhibitions in Leeds city centre, and asked what you think about public transport in Leeds.

People of all ages came along and over 1,000 people shared their views on transport in Leeds.

The responses and other research will be used to develop options for new transport systems for Leeds.

### What next?

You will have the chance to tell Metro and Leeds City Council what you think later in 2009.
